

Stage 16 — Lifecycle Review

Homework Sheet

Assignment

You will finalize your **Lifecycle Framework Guide** and polish your **final project repo**.

Instructions

1. Download the provided **framework guide template**.
2. Complete the guide by mapping each stage of your project to the lifecycle framework.
3. Make sure to complete, commit and push your final project repo:
 - Ensure clean folder structure (/data/, /src/, /notebooks/)
 - Include README with lifecycle mapping
 - Add a stakeholder-friendly summary document
 - Add all the requirements etc
4. Commit the completed framework guide under this homework.

Grading Rubric (100 pts)

- Framework Guide completeness: 40 pts
- Repo organization & cleanliness: 30 pts
- Documentation quality & clarity: 20 pts
- Lifecycle mapping accuracy: 10 pts

Example Submission

- GitHub repo link with clean structure and final commits.
- Framework guide filled out with lifecycle mapping.
- README including lifecycle stage connections.

Explicit Chain

In the lecture, we reviewed how all lifecycle stages fit together and spoke about polished repos.

Now, you will adapt all that we discussed to complete your **own repo polish + Framework guide** for final submission.
